The elegance of marble transcends trends. The Diana Royal Classic Marble Tile Collection follows in the enlightened footsteps established by the classical pursuits of the ancient Greeks and Romans. Movement and grace bring each piece to life as a unique note in the symphony of a space.

The rich creamy beige of this collection evokes Greek theater and Roman senate houses. With delicate swirled veining, it stands for the height of opulence, luxury, and sophistication.

Marble is a metamorphic stone with a timeless history as a flooring, wall covering, paving material and sculptural medium. Consider the Taj Mahal, the Statue of a David, the Lincoln Memorial, the Washington Monument and perhaps your local courthouse. They include but a tiny sample of the cultural and utilitarian impact that marble has had on human civilization.

The Diana Royal Classic Marble Tile Collection is available in 18x18, 12x24, and 24x24 tile sizes.
